

Primary Care – Mental Health and Addictions Education Events

Event Description:

This series of monthly 1 hour lunchtime (12:00-13:00) education events focusing on mental health and addictions is designed to provide family physicians, nurse practitioners, and other family practitioners with the most current and relevant information about approaches on mental health and addictions issues. Participation is available in person at The Royal Auditorium, via OTN or Webcasting. Details will be provided on registration.

Registration:

Further information and online registration available:
